INVESTIGATION”**

NOVEMBER 22-23, 2022

NATIONAL FORENSIC SCIENCES UNIVERSITY

The National Forensic Sciences University, an Institution of National Importance, Ministry of Home Affairs, Government of India was established by the Government of India Act, 2020 with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world. The National Forensic Sciences University is the world's first and only University dedicated to the study of forensics and allied disciplines of engineering, technology, life sciences, behavioral science, clinical psychology, forensic psychology, law, pharmacy, cyber security, digital forensics, management, forensic accounting and its inter-disciplinary areas.

SCHOOL OF LAW, FORENSIC JUSTICE & POLICY STUDIES (SLFJPS)

The School of Law, Forensic Justice and Policy Studies was established with the aim of imparting professional education with a special focus on forensic application in all allied areas of law and policy framework. The school aspires to be the leading provider of forensic justice understanding to all professionals from different areas of governance including justice administration. The school brings the most innovative law programs having a cutting-edge technology focus and seeks to nurture competent technology proficient lawyers who are ready to lead the future in a highly competitive global legal order.

SCHOOL OF FORENSIC SCIENCE (SFS)

The School of Forensic Science is excelling with a resolution to create skilled human resource for criminal investigation through world class teaching, research, training and innovations. As the types of crimes and modus operandi of criminals are continuously changing, qualified and skilled forensic experts are need of the hour to investigate and analyze forensic evidences to support criminal justice delivery system. Through its unique curriculum, state-of-the art infrastructures and diverse pool of qualified and scholastic faculties, the school caters intellectually and culturally inspired academic environment.

CRIME SCENE MANAGEMENT WORKSHOP

NOVEMBER 22, 2022 (TUESDAY)

A crime scene is any physical scene that may be associated to the commission of a crime and may provide the potential evidence to the investigator. Evidences are collected by the crime scene investigator. It is not necessary that crime scene is limited to only a particular location where the crime was committed, but can envelop more than one location. Crime Scene examination means the use of forensic or scientific techniques to preserve and gather the physical evidences.

Crime scene management refers to the activities undertaken to safeguard all physical evidences which have been collected from the crime scene. Its purpose is to identify, collect, preserve, and document the all possible evidences from the scene of crime. A thorough investigation of potential physical evidence at a crime scene is essential to ensure that the evidence does not become contaminated or destroyed. Crime scene management is an extremely important investigation since the evidences recovered from the crime scene will help to re-enact the course of events for the court to consider in the deliberations before it.

The present workshop aims at providing adequate platform to all the stakeholders of criminal justice delivery and administration system so that they can have a thorough understanding crime scene and crime scene management.
